Greetings:

1) By submitting "Raw White Racism" & "Eastern Religion as Poetry" I have designated the 2022 prize as a test of the understanding of WorldPeace as a necessary consideration for the winner. There is obviously a reluctance by the board because there is a mindset to simply go-ahead and burn down the planet with fossil fuels by just going forward with business as usual. There has also been a lack of response by Lee Bollinger to teach peace in a university environment by refusing to respond to my email years ago. No university in the world teaches peace. How cynical can people be. How blind. How ignorant. Look around. Read the news and ask yourself if not teaching peace has created the world we are presently condemned to live in.

In order to teach peace you have to have a curriculum that includes foundational issues in the world human society. 1) The subordination of women to second class citizenship, globally, 2) Government/politics, 3) Religions, 4) Courts of Law, 5) Social Media, 6) Universities, 7) Global Corporations. All these global entities determine the level of peace in the world human society. No one except myself has the experience and education (self and formal) in all these areas.

The subject is so daunting that no one has an idea of where to start. Except myself. So there is only one candidate to begin to teach peace, myself. And I have already written the books that will begin to allow the awarding of a Bachelor's degree in Peace Studies.

2) The driving force of all the chaos in the world human society, are Baby Boomers. Baby Boomers have been designated for early termination of which the Covid was a heads up. The Boomers are going to just sit by and burn down the Garden of Eden which is their children's and grandchildren's legacy from God. Even as they tell their progeny they love them. What a farce. What a gigantic lie.

3) With regards to the war in Ukraine, it is not going to end in a nuclear Mutually Assured Destruction. The ETs that exist on the planet and the homegrown other than 3rd dimensionals have the power to neutralize the nukes. They have the power to choose to neutralize the ones headed anywhere but Russia who is threatening such a scenario.

When the atomic bombs were exploded over Japan in 1945 the repercussions registered in and threatened many other dimensions. So there was an influx of ETs to stop the insanity.

At the same time, these ETs began to create hybrids (human / ETs) who would speak for them and populate the earth. There will never be an ET v Human war because the ETs have the ability to just breed out the pure human race over time and much progress has already been made in this area. So our threat right now is Russia, specifically Putin. It is just a matter of time before he ends up terminated as did Hitler and Mussolini. Sadly a lot of Ukrainians will have to die first. There can be no sadness in the death of Russians, just joy,

4) The world human society began the trauma of ascension to a higher consciousness in 2019 between Palm Sunday and Easter when Notre Dame almost burned to the ground. It was followed months later by the appearance of the Covid out of China. These events were God launched. Not as

judgment per the false book of Revelation but because the world human society is presently intent on burning down the Garden of Eden.

Next to God the ETs have a similar interest in the Garden of Eden not being destroyed.

In that mix was the insanity of Trump who actually, along with other Republican radicals had a plan in place for a coup beginning with an insurrection on January 6th.

So the ascension has begun, the only question is how much of the world human society has to be terminated before peace can begin to increase.

5) Now as I said, the first test of a change of attitude since the burning down of Notre Dame will be the high profile of the Pulitzer Poetry Prize. Will you make a step toward acknowledging that the world human society is on an unsustainable path or will you ignore that your actions have an effect on what is happening in the world human society?

There will be negative repercussions if business as usual is the choice of the Pulitzer Board. That is going to increase the speed of the elimination of Baby Boomer in ways that will only be able to be attributable to God.

6) There will be a second test regardless of what Pulitzer does next week in the coming November American elections. The repercussions of a return to Republican power will be that the negative effects on Baby Boomers will dramatically increase.

7) Now I am sending this email so that no one on the Pulitzer Board will be able to plead innocent to the repercussions of their individual and group actions. You will not be able to say you were ignorant of the above.

8) I have been aware of all this intuitively and increasingly consciously since before I was born, I refused for 60+ years to accept the reality. But now it is obvious what is coming. I have been actively, overtly relating the above since 1988 when I changed my name. I have endured much. More negativity and chaos than you could ever conjure up or manifest. Nothing you could possibly say would be new to what I have experienced in the last 34 years regarding advocating peace and WorldPeace. BTW WorldPeace is one word, one thing. World Peace is two things.

9) I have a many-pronged attack, all non-violent of course, to significantly retard the crashing of the world human society. I have already by email tested my plan over the last few years. And none of my efforts received an on-point valid rebuttal because you cannot rebutt what I have said.

Here is an example. Christians go to church on Sunday morning and say they are saved by belief in the agenda of an ultra-radical left-wing Jesus. You know that radical left message of love one another. Then on Monday morning, the Evangelicals, Fundamental and Baptist Christian pick up the radical right Trump Republican mantra of FUCK ALL RADICAL LEFT LIBERALS AND ESPECIALLY JESUS THE LEADER OF THE BAND.

I have backed off my 10s of thousands of emails a month so as not to interfere with what this Pulitzer Board is going to do. I wanted to cut back on stirring up the radical right fascists and their threats to this board. But regardless of what this board does I will return to significantly advocating against Corporate Christianity and all its false preachers, and against all Universities that refuse to even consider teaching peace in light of Covid AND divisions in the world human society with regards to right-wing radicals worldwide, the war in Ukraine that is from even a casual observer, the mindset of a lunatic Putin.

He has had enough of a reality check that he cannot win that war and the negative shadow over Russian will be incredibly long, the pedophile Pope along with his subordination of women who still go to the Catholic church, Hatred of Blacks, Muslims, etc by a White race that sees that it has become a minority in the melting pot of America. The undeniable predatory nature of Capitalism with not enough social controls especially with regards to the economic enslavement of 99% of the American society. And on and on. I have 15,000 pages on my flagship website at johnworldpeace.com.

9) So let me finish up with some summaries about the spiritual psychic part of my life. Most of you will not be able to relate to it. So what else is new.

Most of you people are high-performing "one-trick ponies". You have worked hard and focused on your way to success but outside that path you mostly function on a kindergarten level.

I am a healthy (with my VA care) 74-year-old, high energy, high IQ, polymath who has focused on one overriding question since I was 8. At that time someone at church said in Sunday school that we were all going to die. I thought WTF. Why would I come here if I was going to die? Everything I have done in my life points back to answering that one question. And I have reached a satisfactory level of peace in what I have discovered so far.

And I am passing it all on without establishing a church, or seeking followers, students, or members of anything. I live what all would consider a minimalist life bordering on austere. I have no assets other than my art and my books and my small business. And I do not desire to accumulate any of those things that are going to cut down my time attempting to see how to increase the level of peace in the world human society.

Jesus came to the world with a very powerful message. He healed a lot of people they say. But he went to the cross alone except for a dozen women who supported his ministry. Of all those who received a healing, none were at the cross. So Jesus, after the resurrection of his spiritual body, not his human body which was destroyed, said he would always be on earth, but he went invisible. Can you imagine a world where Jesus sits on the Pope's throne listening to an infinite line of beggars? Yet this is what the Book of Revelation and the false preachers who sell it claim. Jesus said, My kingdom is not of this earth. He said I will be with you always. The Book of Revelation is a lie promoted by false preachers for an income and power over lazy fools who follow them..

My loving dad to me, was a radical right-wing republican, (which I am not) democrat hater, (I am a democrat) college-educated hater, (I have 3 degrees and worked full time while acquiring them, no debt for me) Ford buying hater (which I bought) and Black and Brown hater. (which I am not) said the only reason preachers go to seminary is to learn how to beg. Always made me laugh.

10) My Psychic Experiences (none of this is new. I have talked to certain people about all of this and most of it is on my website johnworldpeace.com.)

a) Just before I was born into this earth dreamscape, I was standing in front of a wormhole somewhere in the universe. There were two Roman Centurions guarding the entrance. I heard some voices telling me that I was only successful in my prior lives because I had pre-paved those lives into families, that had money, connections, education and so on. I argued with them, that was not true. In the end, I changed my birth parents to average people, with no college, no money, no influential friends but an adequate clean healthy environment. A good working-class family. After I made the bet that I could still accomplish all my goals, I saw a standard image of God, big white beard, white robe, with a clipboard in his hand. He looked at me, knowing I had done a stupid thing. I asked him if I was going to make it. Before he could answer I got sucked into the wormhole to my birth in this earth dreamscape.

b) When I was 8, spending the night at my father's father's farm, sleeping with my mother, I was taken by a man about 50, 220 pounds, dress pants, white shirt bald head out of bed, out of the house and to a UFO, spherical shape about 15+ feet in diameter. The bottom was open and drop-down stairs below were open. I was helped up by the man and a small grey alien, There was another small gray alien sitting on a stool like he was looking at instruments but there were no instruments which I thought was curious. There was a bigger grey with blue pants and white lab coat who said hello. The next thing I remember is that I was going back to the house with the man who put me back in bed on my back.

I sort of woke up and rolled over and looked out the open window through the screen above my head and saw the UFO moving slowly left to right, about 30 feet off the ground, making no noise. It was the UFO I had been in.

This was 1956 and there were no UFO books, nothing on tv, nothing about aliens. I know it was not a dream because I always wondered about the lack of an instrument dashboard. About 5 years ago, I saw on YouTube a video where they said these grays were integrated into the ship and they did not need control panels. I guess they are AI.

About 10 years ago I saw a picture of a UFO exactly like the one I had been in. The picture was taken in England. I never saw any other picture of one.

I have never heard of a UFO experience where a normal-looking human being was on board.

So I knew I had not dreamed the event.

In 1970, I was in the Army stationed in Italy and I only had to work an hour a day so I began reading about Edgar Cayce. I read about 15 books about him and I began to meditate and read playing cards and such.

Then one day I was riding my bike home from the base and when I got home I realized I had no memory of the prior 4-5 hours. The books I was reading said not to do what I had been doing without a mentor. I have never done drugs or alcohol. So I quit everything I was doing with an affirmation that I would wait until the right person appeared in my life before I would return to my studies.

For the next 13 years I gave little thought to the things I had read about. Then one day a client came into my office and said she was going to see a psychic.. I told her I had been expecting a psychic to show up in my life since I got out of the Army.

I called the psychic and she was abusive but I kept listening and after the tongue lashing, she wanted to know if I could come in the next day. I said yes and went.

The woman was about 50+. I sat down in a chair in front of her and gave her my driver's license. For the next hour, she told me all kinds of things. She answered questions I had not asked, and she had valid answers to questions I had wondered about all my life. It was a pleasant amazing conversation.

I took the tape with me and when I got home I immediately played it for my wife. I asked her if based on what she knew about me was the tape true. She said yes. So I said you need to go see this woman. She said, "I dont need anyone to tell me how F-d up I am. I was shocked. We had been together almost 20 years and had 4 kids. I let it go wondering what she was talking about.

Over the next couple of months, I was self-employed, I spent a lot of time with Penny, the psychic because she had answers to all my questions about psychic phenomena and fortune telling and everything related to it. She introduced me to a lot of other professional psychics and took me to

various places and showed me a lot of interesting things. Basically she answered 38 years of questions I had about religious and spiritual matters.

Then one day she wanted to take me to a gem show, she made jewelry to sell, and she wanted to teach me about stones and gems and crystals and so on. I asked my wife if she wanted to go and do a little buying from the wholesalers there. Everything was going fine.

Then we took a break at the food court where there were about 15 -20 professional psychics gathered, taking a break. We sat down and as these people do when you are vouched for, they say whatever comes into their mind related to you.

They focused in on my wife and started reading her like a book. She was shocked. I was shocked at some of what they said. Generally speaking, they indicated my marriage was in trouble right in front of my wife. And my wife did not respond. I had no clue.

A few months later was New Years 1986, and my wife and I had her parents and my parents and Penny and her husband Bud for a casual visit. I was feeling really good. I had finished my education, I had an accounting, tax and law business in which my wife worked. Big questions about my life had been answered and I was learning a lot from Penny.

After everyone left, I was getting ready to go into detail about how we were going to bill about a million dollars in 1986. I told her I wanted to talk and she said, "I want a divorce." I was like WTF? We had been through all the hell of building 3 businesses, college was over, we had kids 10-16 everything was great. What was she talking about? I asked her and got no answer.

I decided not to talk to her about the future. I demanded that we start counseling with someone of her choice. I said I was not going to give her a divorce until I was sure there was no future. Until I was sure divorce was the right thing. She was ready to destroy 20 years and break up the family.

She agreed

We basically went on life as usual. Not arguing. Just going to the counseling and moving forward. The counseling degenerated into each week I had a new task assigned to me to see if that issue was the problem. This went on for months.

Every week same thing. Did he do what you wanted? She said yes. Is he still doing all the other things? She said yes. Then finally in November after about 8 months she said, I realize no matter what you do, I want a divorce.

I said, that is not what I wanted to hear but I am glad this is over.

So we prepared to divorce. She got the accounting biz and I got the law and tax biz. I got my truck motorcycle and clothes and she got everything else.

I worked out a plan for everything and she agreed and I got the judge to say he would agree to it as written when we came to court.

Then her father stepped in and hired the biggest female man-hating divorce attorney in Harris County, Houston and my wife said we had an appointment to work out the divorce. Again I was shocked but OK.

I had been practicing family law and knew the drill. So we went to see this woman and before I could even sit down she started to attack me. I told her the judge already said he would sign the decree.

She called me a liar and tried to pick a fight. I asked her if she wanted to bet that he would not sign the decree.

She did not reply and I turned to the wife and said "That is what I thought."

Berta asked what did you say? I said I did not think you would put your money where your mouth is.

That set her on fire and she marched me out of her office and out of her building.

The wife came out in about 30 minutes and said the lawyer said she would work for her for free. This was a \$350 an hour lawyer back in 1987.

Then the wife said, I have never seen you act like that and I said, You ain't seen nothing yet.

A week later the wife said she would get another lawyer and when we went to court the judge signed the original decree.

It was necessary at this time for me to focus on dealing with all kinds of divorce things and so I disconnected from Penny. And never got back with her again. I am not a person to accept manipulation on any level and Penny had sort of done that in trying to insert herself when that was no role for her in my dealing with all the facets of divorce.

In 1988, I became involved in two New Age Churches that each had about 30 years of experience. The women who ran these were about 20 years older than me and had a lot of experience with bringing New Age people together. Where as Penny was a self-contained unit doing one on one readings and channeling these two women were like preachers of small New Age churches

There was a lot that I learned from people that would come to these churches so I got a lot of input one on one talking to these people. Most of them had psychic gifts but they were not making a living giving people information.

One thing Penny told me early on was that those souls I bet with before my birth had incarnated with me. In other words, they tried to hedge the bet by coming in and thwarting every aspect of my life. Penny did not know any of these people and only mentioned the first wife. So I began to look at everyone in my life to try to identify these other souls. They are all four of my children, my sister, my fathers-live in girlfriend, my 2nd and fourth sons' wives, my second wife's older sister, my best friend in elementary and junior high, There have been about a dozen others but not with the determination and as the above. These people have created ongoing hell in my life and have literally tried to destroy me. the worst is my first wife. I came to know what she meant by "I don't need anyone to tell me how F-d up I am. "We were 10 years into our marriage when her father's brother had a mental breakdown and at that time I found how one of her great uncles on her father's side had been kept locked in the attic. This was after I fathered 4 children with her.

I met my second wife in August 1988 right after the first wife abandoned the children to me just a year after the divorce. Kay was the perfect surrogate mother for my children and she had children the same age as mine.

In 1993, due to the constant harassment from wife one, Kay and I moved to Colorado, 1,000 miles away from my first wife. I finished raising my sons there. There was no need to communicate with wife one. Actually, by the first of 1989, there was no communication with wife one to date.

While in Denver from 1993 to 1996, I worked a job in a warehouse filling orders. I was only making \$7.50 an hour after making \$150 an hour as an attorney but at \$7.50 an hour and 1000 miles away

from wife one, I knew she would not come to Denver and create some issues in the family court there.

The warehouse was boring work but not intolerable and so I decided that I was going to reinterpret the sacred texts of the major world religions. It took 3 years to complete this work.

After being around spirituality for 5+ years I wanted to see what the traditional religious text has to say about spirituality. What I found was that the spirituality that the founders of these religions taught was covered up with all kinds of corporate religion doctrine and dogma such that you really could not see the spirituality within corporate religion.

In 1996, I finished this project and my last son graduated from high school and followed his two brothers into the Marine Corp. Kay and I moved back to Houston where I began to rebuild my life as an attorney and I began to build websites as well. The internet was just getting started.

In 2000 I decided to run for governor of Texas when George Bush was elected President of the USA. I am very aggressive especially when dealing with lies and liars. So I went head to head with the Democratic Party of Texas. I told them what they were doing was going to kill the Democratic Party in Texas that had been in place since reconstruction but they wanted to take the big payoffs that year.

The net effect was Texas went Republican and will never go Democratic again. The Democratic Party wanted my blood so they created as much hell as they could for me that resulting in my becoming a political prisoner in 2008.

In jail, I wrote a line by line response to *The Purpose Driven Life* by Rick Warren, I wrote a biography of St Francis, I re-organized the four gospels of the New Testament mainly to make it easier to read and to remove all the repetition of the four gospels, I wrote 1200 pages of a novel and another 1000 pages of my autobiography.

I also read 55 novels and did a lot of time meditating. I did not watch TV and did not interact too much with the other convicts. I cleared a lot of trash out of my head some that had lingered for decades. So 2008 was a very productive time in my life's journey.

I kept writing poems and reading spiritual and religious books and what interested me in those areas on the internet.

In 2016, I wrote a SciFi novel of about 350 pages.

Then in 2018, I began to organize and publish my 3300 poems. After I did that, and I submitted them for the 2020 Pulitzer Poetry Prize and I began to write about 125 poems a month and publish them. I have kept that up.

About 6 weeks ago, I began to look at Gaia.com which is a New Age, UFO, and Psychic channel among other things, and updated myself on the psychic world of the late 1980s.

There is a huge amount of UFO information now on the internet as well as Near Death Experiences on YouTube.

What I have found is that the psychic readings and channeling have been re-labeled as Channeling from Extra-Dimensionals. Extra-Dimensional are hybrid humans with some alien DNA from alien collectives all over the universe.

These aliens are from the 4th to 13th dimensions and are, as you go up the chain to the higher dimensions, barely physical. People who were channeling entities and their guides in the late 1980s

are now calling these guides extra-dimensionals and many are channeling the higher spiritual messages of these beings as opposed to just helping individuals with their problems.

One thing I found in the 1980s and now in 2022 is that most of the channelers like the psychics have had severe trauma in their childhood. Severe enough that they left their bodies during the trauma and connected with a spiritual/alien being. Now later in their lives they give a reading and channeling to others.

As I stated above, I started out before birth connected with those spiritual energies. I was never abused. I had a normal childhood. I was generally a loner pursuing spiritual and religious things that did not interest my friends trying to understand what is the purpose of my life and how people find their purpose in life.

I have written about everything I have experienced in this life in prose and poetry and related a lot in my art. I feel like everything I write is of benefit to someone.

I can write a 100-page logical linear legal pleading and I can write metaphysical spiritual poetry. The writing gives me clarity in my life but also a perspective for others.

The world human society is evolving very fast now to catch up with the advancement in our technology. The world of the Baby Boomers is dying very fast and the pace is picking up as they die off at a faster pace each day. The Baby Boomers are an impediment to change which must immediately take place before we destroy the earth and experience a predicted 6th extinction, human-generated.

The time for 19th and early 20th-century poetry is over.

Sincerely,
Jwp
