On April 1, 1988, when I made the commitment to change my name to John WorldPeace, I legally changed it on April 5th a few days later. On April 6th, I wrote my WorldPeace Beacon, a poem. I have been writing poetry since October 11, 1970, and have continued to the present. I have written over 7,000 poems.

So one of my first acts, as Dr John WorldPeace JD was to write a poem declaring my intent. The language of the 21st century, 3rd Millennium, The Age of Acquarius is poetry and it is telling and significant that I began my WorldPeace Advocacy with a poem.

## THE WORLDPEACE BEACON

I have a dream

that all of the world human society  
abides in peace

I have a dream

that I and my colors  
travel the world's paths  
creating beacons  
of WorldPeace

I have a dream

that all the angels of the heavens  
and the God of all the universe  
travel by my side  
as I carry the light of love  
and love of peace  
to each and every mountain  
valley, sea and plain  
to each and all that travels  
the blessed earth

One simple man WorldPeace

One simple message WorldPeace

I have a dream that with each passing  
with each creating

a beacon of love  
and understanding  
is forever established  
forever ignited, forever to radiate  
Peace and Light

One simple man WorldPeace  
one simple message WorldPeace

I have a dream that  
all that is pure in love and light  
comes continuously to  
touch each tiny beacon  
to add light to Light  
to make the earth a beacon  
in the infinite heavens  
that radiates into each of the hearts  
and minds of  
the Infinite Potential  
Peace and Light

I have a dream that all who come  
that all who are called  
to each tiny beacon  
receive the infinite gifts of God  
wellness and love  
peace and understanding

I have a dream that all who come, receive  
each according to his need  
each according to her love  
so that as they travel one by one  
their separate paths  
each carries the love and peace  
unconditionally forever given to each and every  
vibration of the earth  
until that never-ending day arrives  
when each and every one  
when all in all, forever flow  
in love's most precious gift  
WorldPeace

WorldPeace is one word

## **THE WORLDPEACE BANNER**

The WorldPeace Banner was envisioned by Dr John WorldPeace JD in April 1988. Its purpose is to call attention to the vision of WorldPeace.

The stick figures represent all the diverse people of the world.

The word WorldPeace is lettered as if chiseled into stone. This symbolizes that WorldPeace will be imprinted upon the foundation of the earth and upon that foundation a new era will begin in which a commitment to WorldPeace will permeate the world human society.

The sun rising above the word WorldPeace has five rays. Five is the symbolic number of humanity. The sun is midpoint between the word World and the word Peace. This symbolizes that it is humanity who must bring together the reality of the World and a vision of Peace to form a new vision of peace for the future.

The sun also symbolizes an open hand. Many use two fingers to symbolize Peace. However, the hand has five fingers and the open hand symbolizes humanity and communicates not just Peace but WorldPeace.

One day a WorldPeace Banner of some design in every language will fly above all the national flags of the world human society. When this happens, we will have subordinated our nationalistic interests to a commitment to WorldPeace and there will then, in fact, be Peace on Earth.

## **THE WORLDPEACE INSIGNIA**

The WorldPeace Insignia is round with an open hand in the middle which represents human beings. Red is the color of human blood. Where two fingers represent peace, and open hand, a wave, represents WorldPeace. Eventually, every time someone waves an open hand, it will be a reminder of WorldPeace.

Behind the hand is a yin-yang symbol. This represents the constant changes in all dreamscapes and all dimensions within the Infinite Potential. Change is the cause of ongoing disharmony in the world human society.

The yin-yang (male and female energies) is green and blue which represents the planet (blue sky – green earth). It represents the duality of this dreamscape and the constant encroachment of one color to the other. Also, within the blue is contained some green and within the green is contained some blue. Within the darkest night, there is always light and within the brightest day there are some shadows.

Around the blue-green earth there is a yellow band which represents the physical sun. The sun is the light of the physical world and also represents the spiritual light of all the founders of all the major world religions.

The black band around the sun represents the physical universe (even though it is indigo or beige depending on which scientist you listen to). It is the spiritual universe from which all things manifest and back into which all things disintegrate.

The overall insignia is round and represents the no beginning – no ending oneness (unity) of all things.
