Marjorie Miller Administrator Pulitzer Prize
and to all board members

I have found some more information and everything makes sense now.

I am putting it together. May take a few hours

REMEMBER a few weeks ago when I advised you to hold off on starting your job as Administrator because if you didn't you were going to be the laundry woman to clean of a lot of crap going back to my submission for the 2020 Pulitzer Prize and Dana Canedy - well now all this stuff on Amanda Gorman has hit the fan.

Bud Kliment knows where all the bodies are buried for the last decades. Now you know why he did not want your job and has been refusing it since Dana Canedy was fired for what she did to me and who knows what else.

Ms Gorman is dirty. And I found the rest of my notes just now. The internet has a very long memory. And few people if any can cover up wrong doing.

I have attached a posting from Goodreads as evidence that Amanda was trying to cover her tracks by taking One for Whom Food is not Enough. off her website.

I will pull all this together in the next few hours.
