1) The following is a summary of the publishing irregularities of Amanda Gorman as compiled by Dr John WorldPeace JD

2) I practiced law for 20 years and I have been on the internet from the beginning in the 1980s and building websites since 1998. I understand the processes of lawsuits and I understand the processes of the internet and social media. The internet is way more effective and light years faster in pursuing wrongful actions by others.

3) Premise: Amanda Gorman has submitted a book, probably "Call US What We Carry" for the 2022 Pulitzer Poetry Prize. The actions of Ms. Gorman and her agents Viking publishing and others have been untruthful with regards to her submission, Further I believe someone at Pulitzer leaked a message to Viking that Gorman was going to win the 2022 Pulitzer Poetry Prize in early to mid January 2022.

4) On January 25, Bustle.com wrote an article that referenced several things. Article attached.

a) In 2014 she was designated Los Angeles Youth Poet Laureate

b) 2015 she self published with Amazon *The One for Whom Food Is Not Enough*

c) in 2017 Ms Gorman was designated the National Youth Poet Laurette

d) In January 2021, she read her poem "The Hill we Climb" at Presidents inauguration. Shortly there after the inauguration poem was made into a book.

e) Sometime around July Ms. Gorman published with Viking a book titled "The Hill we Climb and other Poems. This book had 240 pages per an ebay seller.

f)The book was being sold online with Amazon and elsewhere on the internet. Sometime around July 2021 Ms Gorman took this book off line.

g) There was an ad on ebay to which I responded to buy A Hill we climb which had 240 pages. I was send as happened once before We are what we Carry which I now have three copies with 228 pages See attached exhibits

10) The Library of Congress ISBN records shows that "The Hill we climb and other poems" was replaced by Call Us What we Carry :poems and that ISBN

- 9780593465073 was now invalid. This number is assumed to be "The Hill we Climb and
